

Year 12 Transition Work Part 2b:

Human Geography Research

Research one example of an urban issue and use the 7 headings from the table below to make notes.

Examples of urban issues include:

Regeneration in York e.g. Banana Warehouse redevelopment

<https://www.yorkpress.co.uk/news/18579949.banana-warehouse-hotel-plan-approved---creating-200-construction-jobs/>

Gentrification in London

<https://elliesalevelrevision.wordpress.com/2019/01/12/is-gentrification-good-or-bad-for-the-city-of-london-and-why/>

Heronby development near Escrick

<https://www.examinerlive.co.uk/news/local-news/brand-new-yorkshire-village-4000-26018875>

Creating a new capital city for Indonesia

<https://www.theguardian.com/world/2019/aug/27/why-is-indonesia-moving-its-capital-city-everything-you-need-to-know>

You can **select any of these issues or you can research your own** e.g. new housing development, transport improvements, sustainable cities, regeneration project, challenges in slums Use several reliable websites to get a range of information.

You can choose how to write this work up e.g. type it on the table below, type it up on a separate Word / Powerpoint document, write bullet points on a sheet of paper, create a mind map, have each point on a separate revision card. You do whatever you prefer – the main thing is that you go through the process of completing this task, as it will help you with the A level Geography course.

	Task	Information (this can be in note form / bullet points)
1	Give an overview of the urban issue	
2a	Map showing the location at a local scale (e.g. paste a map showing a pinpoint of the area within the village / city). You can use the Snipping tool to copy a Google map.	
2b	Map showing the location at a national scale (e.g. paste a map showing a pinpoint of the area within the country)	

2c	Map showing the location at a global scale (e.g. past a map showing the location of the area within the world)	
3	Select some points and categorise them. The categories could be: i) causes, effect & responses ii) Social, economic & environmental effects iii) short & long term impacts iv) local, regional, national & global impacts You may combine two or more categories e.g. short term economic effect.	
4	List any geographical terms that relate to this issue.	
5	List the different stakeholders (groups of people) who may have an opinion towards this issue. <i>Optional:</i> Give a reason for their opinion.	
6	Outline your judgement / opinion about this issue.	
7	Create 5 questions about this issue e.g. Where....What are the Why is....How does.....What might happen if.....?	

Please print out any work that you do.

If there are any problems or you have any questions, then please email me at hicklingpj@fulford.york.sch.uk

Mr Hickling
(Head of Geography)
